PROFESSIONAL EXPERIENCE

Product Management Intern, AI TECHNOLOGY PARTNERS, Boston MA, Hybrid

May 2024 - June 2025

- Create AI agents that automate newsletter content for c-suite executives and reach out to qualified sales leads.
- Built and marketed technical solutions worth \$100,000 in a B2B company and developed training materials to help clients effectively use generative AI across various verticals and industries.
- Achieved certification and expertise in AI automation, Microsoft 365, prompt engineering and custom copilot solutions.

Marketing Manager, PRODREAM AI, Virtual

December 2023 - January 2025

- Engaged 3000+ students from low-income schools with an AI-powered college counselor created by Harvard Innovation Labs and Microsoft for Startups Founders Hub.
- Promoted social media posts on Tiktok that got over 5M+ views and led Instagram and LinkedIn marketing.
- Reached out to study influencers on social media after evaluating their target audience and how well they align with Prodream's brand.

Hostess & Server, OLD STREET HOTPOT AND DIM SUM, Milford, CT

June 2023 - Present

- Managed a line of 100+ customers during opening by utilizing waitlist and notify system.
- Oversaw up to 15 tables of customers at once by taking orders, handling requests, and resolving issues on the spot while communicating with managers.
- Cultivated a welcoming presence for customers in a fast-paced environment.

EXTRACIRRICULARS/LEADERSHIP INVOLVEMENT

External Partnerships Lead, THE GENERATOR, Wellesley, MA

January 2025 - Present

- Achieve sponsorships and partnerships with organizations and companies such as Loveable and Harvard for AI- related events.
- Discover research gaps and continue ongoing academic conversations with Toyota Research Institute to draft sufficient research proposals in collaboration with Babson College.
- Create opportunities for students to learn how to use AI to solve business problems, use AI tools for them to automate daily tasks, make websites and rapidly prototype creative applications.

Student Lead, AI INNOVATORS AND SMALL BUSINESS BOOTCAMP, Wellesley, MA

April 2025 - Present

- Consult 60+ small businesses on leveraging AI in daily operations, marketing and technical applications.
- Leveraged listening skills to understand business problems and suggest best course of action without using AI as main solution, but rather, a tool.
- Demonstrated applications of AI for different use cases using API keys and MCP's.

Chief Operations Officer, DRINKDOCK STARTUP, Wellesley, MA

November 2024 – June 2025

- Optimized supply chain operations by leading relationships with manufacturers abroad, negotiating lower prices, and faster shipping.
- Developed product management skills to align product with customer expectations and needs.
- Collaborated with finance team to stay in the company's budget and manage inventory to achieve breakeven.
